

Primary 1/2

Please keep checking our Twitter Feed for more learning ideas and activities. Feel free to send us photos of your learning to [@densroadps](#), we'd love to see you!

Numeracy and Maths

Grab your number line from Week 2, or make a new one. Have a family member give you some "numbers to 20" challenge questions. Remember to use the number line to help you jump forwards and backwards.

Sundog Numeracy and Maths
Daily Challenges for your Maths Group

Every maths group is getting a daily challenge this week to revise what you've learned this school year. Log in everyday to see what your topic is.

Writing

Write down your own "To Do List" of all the exciting things that you want to do and learn when we eventually all return to school. What do you miss doing most of all? Make that your first 'to do'!

Reading

Remember you can access Epic! Books and Oxford Owl as often as you like. You can get in touch for logins or check previous grids. Can you start gathering some book reviews? What did you read? Who was the author? How many stars do you give the book? Why?

Spelling

Mild	van will pot yes vet fox
Spicy	stay sheep fight wool shard fair
Hot	team noise cone nice tune cake

Choose either the mild, spicy or hot spelling words and practice spelling. Use your spelling homework sheets for ideas on how to practice!

Digital Learning / Expressive Art

Create your very own BeeBot for practicing programming! [Click here](#) for a link to a Beebot Template, or try drawing your own from scratch!

PE – Gym

Visit [GoNoodle](#) and choose some keep fit activities for you and your family to join in with. My favourites are Zumba Kids and Fresh Start Fitness. Don't forget to try some stretches before and after your main activity too!

French

Do you remember exploring the days of the week and how to say them in French? Have a family member check if you've remembered. Can you remember all of the words and match them to their English meaning?

STEM

Can you use junk from your house (before it goes in the bin... not after) to create a junk model taller than you? All you'll need is sellotape, junk and a growth mindset! Remember to share your creations on Twitter or Teams, and take a look at P5's creations on Twitter for inspiration.

Microsoft Teams

Miss D'All is logged into her Team throughout the school day if you want to get in touch to ask questions about your work, or just to have a wee chat! Contact the [school Twitter through Direct Message](#) if you're having difficulty signing in.

Choose Your Own Learning

This one is a little bit different. I'd like you to choose your own topic, anything you'd like and share it with me and the rest of P1/2. You can draw or write down what you learn. Or record yourself talking. You be the teacher and I'll be the pupil.
