

Primary 1/2

Please keep checking our Twitter Feed for more learning ideas and activities. Feel free to send us photos of your learning to [@densroadps](https://twitter.com/densroadps), we'd love to see you!

**Numeracy and Maths**

We have been learning to tell the time to the hour and half hour.

Play the [Telling the Time Game](#) on MathsFrame. Try and play it timed and see how well you do. Make sure to just choose o'clock and half past.

**Sumdog Numeracy and Maths**

Daily Challenges for your Maths Group

Every maths group is getting a daily challenge this week to revise what you've learned this school year. Log in everyday to see what your topic is.

**Writing**

We have been writing sentences using capital letters and full stops.

Write a little bit about yourself and your family. Your likes and dislikes, things you do in your free time, your favourite thing to learn. Remember to upload it to Teams if you can!

**Reading**

We have been practicing reading our sounds and words.

Head over to [Ruth Miskin on YouTube](#) for some reading practice. You can watch them live or on catch-up.

**Spelling**

We have been blending sounds to make words.

How many words can you make with these?  
**f e l h sh r j v y w th z ch qu**

Extra sounds to help  
**ng nk a i ay oo**

**Digital Learning**

Take your photography skills to the next level and find objects around the house or outside that look like the sounds in your name.

**Animals and Their Habitats**

We have been learning about local habitats.

Head to [Edinburgh Zoo's website](#) to look at the live webcams of their animals. Can you explain why their habitat is good or bad for them? How can the zoo improve the habitats?

**Expressive Art**

We have been learning to describe how music makes us feel.

Can you get help to make/write a playlist with a song for each feeling? (E.g. *This is Me* from *The Greatest Showman* makes me feel proud)

**STEM / Craft and Design**

Make a loo roll/kitchen roll bird feeder.

1. Cover a cardboard tube in peanut butter.
2. Roll it in bird seed and thread some string through the tube.
3. Hang it up somewhere that birds will be safe to scoff their seeds.

**Microsoft Teams**

Miss D'All is logged into her Team throughout the school day if you want to get in touch to ask questions about your work, or just to have a wee chat! Contact the [school Twitter through Direct Message](#) if you're having difficulty signing in.

**PE – Gym**

We have been learning to improve our core movement skills.

If you have space at home or in the garden, use everyday objects to make an obstacle course. Can you include jumping, skipping, running and throwing?
