

## Primary 6 Home Learning Grid – Week 6

Please keep checking our Twitter Feed for more learning ideas and activities.  
Feel free to send us photos of your learning to @densroadps, we'd love to see you!

### Spelling

Logon at [www.sumdog.com](http://www.sumdog.com) and access this weeks spelling challenge. Let me know how you got on and what was tricky through Teams.

### Sumdog

Go to [www.sumdog.com](http://www.sumdog.com) and take part in the Dundee Sumdog competition.

### Writing

Go to [www.pobble365.com](http://www.pobble365.com) and complete the different writing activities for one of the pages. You can also access pobble365 from the virtual classroom.

### Reading

Get onto EPIC and see if there are any books about famous Victorians or about life in the Victorian era. Find your top 5 things from the books you read and share these on the Teams page or write them in your jotter and take a photo of what you have written.

### PE – Gym

Join Joe Wicks at 9.00am for a 30-minute P.E lesson.  
<https://www.youtube.com/user/thebodycoach1>  
or  
Get outside and do one activity everyday for a week. Take photos and videos of what you do, then add them with details to the Teams page.

### Music – Create a Playlist

Make your own HAPPY playlist by choosing 10 songs that lift your mood and make you smile. Share your list on Teams for others to try out.

### Word Games

Choose one of the games from the ideas provided and have some fun while learning.

Word games for families.pdf

### Maths – Money Monday RBS

Visit the Royal Bank of Scotland website for lots of fun interactive games and videos about money.

### BBC Bitesize Live Lessons

BBC Bitesize put up live lessons every day. Why not choose some lessons to watch? Click below to see what is on.

bbc bitesize.JPG

### Personal Project

Rainbows are everywhere we go at the moment. These are known as a natural phenomena. I would like you to choose and research another kind of phenomena from the list, share it with me and get researching.

**Tsunamis, Earthquakes, Geysers, Supernovas, Tornados, Volcanic Eruptions or Solar Eclipse.**

### ICT

You should now have access to a notebook page in teams where you can share your learning in a collaborative space or in your own personal space.

**Go and find it and then find the task in the shared, collaborative space to add your ideas and suggestions to.**
